*A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.*

You are more likely to die from the flu than you are from a shark attack. Following that logic, you should be more fearful of snotty-nosed kids than you are of sharks. Sharks are fascinating creatures. Did you know that they have six senses? Do you know what kind of skeletons they have? They don t have bones! Do you know whether they lay eggs or have babies? Do you know that they make Mermaid s Purses ? There are many interesting things to learn about sharks. Some of them even glow in the dark! Surprisingly sharks are more refreshing than New Socks. Sharks actually contribute to the health of the ocean. It is important for us to learn about them, because if they go extinct the whole balance of the ocean will be compromised. We shouldn t be too terrified of sharks. We terrorize them much more. Sharks do attack and kill humans, that is true, but humans kill hundreds of millions of sharks. We need to learn more about these amazing creatures, and we need to learn to respect them.
