

## Design and Destiny: Jewish and Christian Perspectives on Human Germline Modification

By -

MIT Press Ltd, United States, 2008. Paperback. Book Condition: New. 224 x 152 mm. Language: English . Brand New Book. We are approaching the day when advances in biotechnology will allow parents to design a baby with the traits they want. The continuing debate over the possibilities of genetic engineering has been spirited, but so far largely confined to the realms of bioethics and public policy. Design and Destiny approaches the question in religious terms, discussing human germline modification (the genetic modification of the embryonic cells that become the eggs or sperm of a developing organism) from the viewpoints of traditional Christian and Jewish teaching. The contributors, leading religious scholars and writers, call our attention not to technology but to humanity, reflecting upon the meaning and destiny of human life in a technological age. Many of these scholars argue that religious teaching can support human germline modification implemented for therapeutic reasons, although they offer certain moral conditions that must be met. The essays offer a surprising variety of opinions, including a discussion of Judaism's traditional presumption in favor of medicine, an argument that Catholic doctrine could accept germline modification if it is therapeutic for the embryo, an argument implying...
